

Document	Installation Instruction
Software	SocialSalesMap Connector for Outlook V1.0
Compatibility	Optimized for Microsoft Outlook 2010
Last Update	2012-01-05

Installation

1. Download <SocialSalesMap Connector for Outlook V1.0.zip> at <http://www.blueeconomics.info/support/outlook-connector/>
2. Unzip the entire file to your local c: drive
3. Go to the folder <publish> and run <setup.exe>
4. In case of security warning, confirm with <run>.
5. After installation, restart Outlook

Done. Now you can export contacts from Microsoft Outlook directly to the SocialSalesMap <Contact Pool> by either right-clicking on marked contacts or by using the <Export Contact> function in the SocialSalesMap Menu.

System Requirements Please make sure that the Microsoft .Net Framework 4 is installed, which can be downloaded for free from Microsoft. You will find a list of related system requirements at <http://www.microsoft.com/download/en/details.aspx?id=17851>
